

In the SAP Speciality we focus on providing services for On- Premise and Cloud technology solutions from the manufacturer SAP SE; our services aim to drive our costumers to become **leading organizations** in their field supported by the benefits of **digital transformation**.

We are dedicated to helping companies to enhance their capabilities, through the benefits provided by **SAP solutions** such as: ERP (Enterprise Resource Planning), supplier management, CRM (Customer Relationship Management) and CX (Customer Experience), analytics, human capital management, among other internal operations, integrating each of these processes in a single space.

Our hallmark

Through our specialized team, we help our clients to maximize the investment of their SAP S/4HANA, SAP Ariba, SAP Customer Experience, SAP SuccessFactors, SAP Business Technology Platform solutions. Providing companies with innovative **processes that respond to their business models**.

Services

- **SAP S/4HANA:** An enterprise resource planning (ERP) system that transforms business processes with intelligent automation. Its operation is based on in-memory databases offering real-time processing speeds.
- **SAP Business One:** An enterprise resource planning (ERP) system for small and medium-sized enterprises (SMEs). On-premises ERP that helps you manage everything from accounting and CRM to purchasing and supply chain management.
- **SAP Customer Experience:** It is a suite of solutions in the cloud to improve the management of the customer experience, through processes such as marketing, electronic commerce, sales and service.
- **SAP SuccessFactors:** It is a suite of solutions in the cloud to manage human capital, providing motivational experiences to staff.
- **SAP Business Technology Platform:** It is the analytics solution in the cloud - business intelligence (BI), which provides features such as augmented analytics, predictive analytics and business planning, in a single solution.

Benefits

- Wide portfolio of SAP solutions and services, with experts according to processes and industries.
- We automate the processes of organizations, helping businesses to make accurate decisions.
- We support you to implement the new ERP S / 4HANA, leveraged with solutions such as: SAP Ariba, SAP C / 4HANA, SAP Analytics Cloud and SAP Success Factors.
- We have: migration to SAP S / 4HANA, SAP business support, optimization of SAP implementations, functional support, specialized consulting, cloud infrastructure, sale of licenses and subscriptions.
- Assessments to companies to identify needs or optimizations in SAP systems.
- Regardless of the size of the company, we provide technological solutions to our clients, promoting digital transformation that allow them to obtain significant cost reductions, increased revenues and more efficient processes.
