

PROJECT MANAGEMENT

The Project Management specialty has more than 20 years of experience and it is supported by institutions with international recognition (PMI®, IIBA®).

It has a pool of available resources, specialized services and tailored solutions in PM, PMO, traditional and agile. In addition to meticulous selection processes for choosing the right consultant and a service tracking value model which allows the development of talent aligned with the business. On-Site and On-Line Training (ISO 9001: 2015 Certification); Project Management is an ally of PPM tools (Daptiv™ PPM, CA™ PPM).

PROJECT MANAGEMENT

BENEFITS

IS THERE A LACK OF PROGRESS IN YOUR BUSINESS PROJECTS?

Nowadays, the dynamism of the market and frequent changes in the environment require that organizations mature their functions with the management and direction of the projects, facing aspects of agility, risks and profitability, which allow them to deliver value in less time, optimizing resources and improving internal processes, thus satisfying the demand and the customers demand.

Otherwise, you can find yourself immersed, as a company, in a constant wave of customer loss, low profitability and scarce business credibility, preventing competition in a global market full of challenges and demands to be met.

SOLID SUPPORT

At PRAXIS we have more than 20 years of experience implementing best practices; thanks to which, we have achieved the success of our projects, that are endorsed by the Project Management Institute (PMI®), through the Registered Educational Provider (REP®) certifications and the Consulting and Training processes certified in the ISO 9001: 2015 quality standard.

Our specialized services are:

- PM/PMO Traditional and agile.
- Selection process.
- Value Model.
- Training.
- Coaching.

The abovementioned guaranteed by the best leaders certified as Project Manager, in the field of Project Management.

WE HAVE WHAT YOUR BUSINESS NEEDS

At PRAXIS, we understand your business and we design, along with you, the most convenient solution in order to implement the best agile and / or traditional Project Management practices.

Agile and Traditional PMO:

We support the implementation of a new generation of PMO, migrating to a flexible and dynamic model based on PMI-ACP®, MANAGEMENT 3.0, SCRUM, LEAN, KANBAN, ISO 21500, among others.

PPM Solutions:

We use PPM® tools as control, monitoring and support platforms that guarantee the results your business requires: CA PPM®, Daptiv PPM®, MS EPM, JIRA, RALLY, to name a few.

Specialized consulting and PM seedbed:

We offer a scheme aligned to the needs of the workforce and intellectual capital of your organization under the premise of obtaining efficiency and productivity. Our staff, is composed by professionals specialized in different agile management methodologies and experienced in different sectors and business areas.

Seminars and PM* courses:

(On-Site & E-learning modality)

We rely on methodologies and processes supported by the PMI®. We have expert instructors who provide the attendees with the necessary tools to obtain the most recognized certifications: PMI-ACP®, PMI-PMP®, PMI-CAPM®, PMI-RMP®.

* ISO 9001: 2015 Quality Standard Certification

Consulting:

In PRAXIS, we have evolved by integrating agile methods and processes into our offer, which, together with a deeper knowledge of our clients, allow us to create the most convenient solution.

—
Maximization of business results and a response capacity increase through a flexible and dynamic model.

∣
Optimization of access to information and indicators for timely decision making.

△
Increase in the number of successful projects completed, thanks to the improvement in agile and traditional processes.

□
Greater alignment of the expectations of your employees with those of the company.

↗
Savings, thanks to the decrease in the number of non-aligned conflict initiatives and unrequired projects.

↖
Reduction of costs and time to market, if strictly-necessary projects are executed.

↙
Greater control of processes through our team of experts to improve time, quality and costs.
